

(A GLOSSARY OF TERMS EVERY TARGETED INDIVIDUAL SHOULD KNOW)

(#)

N/A

(A)

AGENT PROVOCATEUR - A person assigned to provoke unrest, violence, debate or argument by or within a group while acting as a member of the group but covertly representing the interests of another. In general, agents provocateur seek to secretly disrupt a group's activities from within the group. Agents provocateur are employed to disrupt or discredit a group by performing acts for which the group will be falsely accused, by leading the group into activities that they would not otherwise pursue or by creating discord between group members. Provocateurs may encourage illegal acts, recommend belligerent tactics a group might otherwise reject, spread false rumors intended to provoke hasty action by a group, spread malicious rumors within a group about a group member or employ other tactics intended to provoke improper action by a group or to divert a group from its chosen purpose. An agent provocateur might attempt to implicate as an accomplice an innocent target who the agent unwittingly involves in a crime or criminal conspiracy...

(B)

BLACK LISTING - A list of individuals or organizations designated for special discrimination or boycott; also to put a person or organization on such a list. Blacklists have been used for centuries as a means to identify and discriminate against undesirable individuals or organizations. A blacklist might consist, for example, of a list of names developed by a company that refuses to hire individuals who have been identified as union organizers; a country that seeks to boycott trade with other countries for political reasons; a Labor Union that identifies firms with which it will not work; or a government that wishes to specify who will not be allowed entry into the country...

BULLYING - Generally seen as aggressive intentional behavior to control someone physically, mentally, or emotionally. Not all bullying is aggressive sometimes it's punitive. Bullying occurs in every city, community and school. Bullying has no barriers it affects all races and gender...

(C)

CALEA - A 1994 law ("Communications Assistance to Law Enforcement Act") to force a massive reworking of the U.S. telephone infrastructure so that the government can intrinsically wiretap it. Also called the FBI Digital Telephony Act. It is a domestic extension of ECHELON...

CAUSE STALKING - An alternate term for what some multi stalking targets call "organized stalking" or "gang stalking.". It is specialized groups of people who think they are supporting some cause, but are more interested in harassing targets designated by their leaders...

CHAOS FOR CONTROL - A framework aimed at deliberately inducing disorder within a state or organization, with the ultimate goal of achieving complete control over it...

COINTELPRO or COUNTER INTELLIGENCE PROGRAM - a series of covert, and often illegal, projects conducted by the United States Federal Bureau of Investigation (FBI) aimed at surveilling, infiltrating, discrediting, and disrupting domestic political organizations. COINTELPRO tactics included discrediting targets through psychological warfare, planting false reports in the media, smearing through forged letters, harassment, wrongful imprisonment, extralegal violence and assassination. Covert operations under COINTELPRO took place between 1956 and 1971, however the FBI has used covert operations against domestic political groups since its inception. The FBI's stated motivation at the time was "protecting national security, preventing violence, and maintaining the existing social and political order"...

COERCIVE PERSUASION or THOUGHT REFORM - Two terms best understood as a coordinated system of graduated coercive influence and behavior controls designed to deceptively and surreptitiously manipulate and influence individuals, usually in a group setting, in order for the originators of the program to profit in some way, normally financially or politically. Using rewards and punishments, efforts are made to establish considerable control over a person's social environment, time, and sources of social support. Social isolation is promoted...

CONSPIRACY - A secret agreement between two or more people to perform an unlawful act...

CRIMES AGAINST HUMANITY - A term referring to murder, extermination, enslavement, deportation, imprisonment, torture, sexual violence, persecution or any other inhumane act or omission that is committed against any civilian population or any identifiable group and that, at the time and in the place of its commission, constitutes a crime against humanity according to customary international law or conventional international law or by virtue of its being criminal according to the general principles of law recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission. "genocide" means an act or omission committed with intent to destroy, in whole or in part, an identifiable group of persons, as such, that, at the time and in the place of its commission, constitutes genocide according to customary international law or conventional international law or by virtue of its being criminal according to the general principles of law recognized by the community of nations, whether or not it constitutes a contravention of the law in force at the time and in the place of its commission...

CRIMINAL HARASSMENT - The crime of stalking is defined legally as criminal harassment. The following section of the Criminal Code of Canada pertains to criminal harassment: Section 264. (1) No person shall, without lawful authority and

knowing that another person is harassed or recklessly as to whether the other person is harassed, engage in conduct referred to in subsection (2) that causes that other person reasonably, in all the circumstances, to fear for their safety or the safety of anyone known to them. Prohibited conduct: (2) The conduct mentioned in subsection (1) consists of (a) repeatedly following from place to place the other person or anyone known to them; (b) repeatedly communicating with, either directly or indirectly, the other person or anyone known to them; (c) besetting or watching the dwelling-house, or place where the other person, or anyone known to them, resides, works, carries on business or happens to be; or (d) engaging in threatening conduct directed at the other person or any member of their family...

**CROWD MANIPULATION** - The intentional use of techniques based on the principles of crowd psychology to engage, control, or influence the desires of a crowd in order to direct its behavior toward a specific action. This practice is common to politics and business and can facilitate the approval or disapproval or indifference to a person, policy, or product. The ethical use of crowd manipulation is debatable and depends on such factors as the intention of and the means used by the manipulator, as well as the ends achieved. Crowd manipulation differs from propaganda although they may reinforce one another to produce a desired result. If propaganda is "the consistent, enduring effort to create or shape events to influence the relations of the public to an enterprise, idea or group", crowd manipulation is the relatively brief call to action once the seeds of propaganda (i.e. more specifically "pre-propaganda") are sown and the public is organized into a crowd. Crowd manipulation also differs from crowd control, which serves a security function. Local authorities use crowd-control methods to contain and defuse crowds and to prevent and respond to unruly and unlawful acts such as rioting and looting...

**CYBERSTALKING** - the use of the Internet or other electronic means to stalk or harass an individual, a group of individuals, or an organization. It may include false accusations, monitoring, making threats, identity theft, damage to data or equipment, or gathering information in order to harass. The definition of "harassment" must meet the criterion that a reasonable person, in possession of the same information, would regard it as sufficient to cause another reasonable person distress...

(D)

**DEA** - U.S. Drug Enforcement Administration...

**DECOY(ing)** - A person, device or event meant as a distraction, to conceal what an individual or a group might be looking for. Decoys have been used for centuries most notably in game hunting, but also in wartime and in the committing or resolving of crimes...

**DIRECT ENERGY WEAPON** - A device that emits energy in an aimed direction without the means of a projectile. It transfers energy to a target for a desired effect. Intended effects may be non-lethal or lethal. Some such weapons are real, or are under active research and development...

DEHUMANIZATION - To make somebody less human by taking away his or her individuality, the creative and interesting aspects of his or her personality, or his or her compassion and sensitivity towards others.[citation needed]  
Dehumanization may be directed by an organization (such as a state) or may be the composite of individual sentiments and actions, as with some types of de facto racism. State-organized dehumanization has been directed against perceived racial or ethnic groups, nationalities, religious groups, genders, minorities of various sexual orientations, disabled people as a class, economic and social classes, and many other groups...

DISINFORMATION - False or inaccurate information that is spread deliberately with intentions of turning genuine information useless. For this reason, it is synonymous with and sometimes called black propaganda. It is an act of deception and false statements to convince someone of untruth. Disinformation should not be confused with misinformation, information that is unintentionally false. Unlike traditional propaganda techniques designed to engage emotional support, disinformation is designed to manipulate the audience at the rational level by either discrediting conflicting information or supporting false conclusions...

(E)

ECHELON - The NSA's world-wide surveillance network and associated software.

ELECTRONIC HARASSMENT - A term referring to the use of electronic devices to harass, torture, and/or physically harm a person, not to be confused with cyberstalking. In Michigan, Public act 257 of 2003 makes it a felony for a person to "manufacture, deliver, possess, transport, place, use, or release" a "harmful electronic or electromagnetic device" for "an unlawful purpose"; also made into a felony is the act of causing "an individual to falsely believe that the individual has been exposed to a harmful electronic or electromagnetic device." In Maine, Public law 264, H.P. 868 - L.D. 1271 criminalizes the knowing, intentional, and/or reckless use of an electronic weapon on another person, defining an electronic weapon as a portable device or weapon emitting an electrical current, impulse, beam, or wave with disabling effects on a human being...

ELECTROMAGNETIC RADIATION - Classified into ionizing radiation and non-ionizing radiation, based on whether it is capable of ionizing atoms and breaking chemical bonds. Ultraviolet and higher frequencies, such as X-rays or gamma rays are ionizing. Non-ionizing radiation, is associated with two major potential hazards: electrical and biological. Additionally, induced electric current caused by radiation can generate sparks and create a fire or explosive hazard...

ELECTROMAGNETIC SHIELDING - The process of reducing the electromagnetic field in a space by blocking the field with barriers made of conductive and/or magnetic materials. Shielding is typically applied (1) to enclosures to isolate electrical devices from the 'outside world' and (2) to cables to isolate wires from the environment through which the cable runs. Electromagnetic shielding that blocks radio frequency electromagnetic radiation is also known as RF shielding. The shielding can reduce the coupling of radio waves, electromagnetic fields and

electrostatic fields, though not static or low-frequency magnetic fields (a conductive enclosure used to block electrostatic fields is also known as a Faraday cage). The amount of reduction depends very much upon the material used, its thickness, the size of the shielded volume and the frequency of the fields of interest and the size, shape and orientation of apertures in a shield to an incident electromagnetic field...

ELECTROSENSITIVITY - Also called electro sensitivity or electro hypersensitivity is a disorder in which a person presents symptoms of a sickness caused or aggravated by magnetic fields or waves. These symptoms are recognized by the WHO and by numerous scientific studies. Here is the WHO'S definition: "For some time, numerous individuals complained of diverse health problems attributed to exposure to electromagnetic fields. While certain individuals report mild symptoms and are able to avoid these fields, others are so gravely affected that it becomes necessary to stop working and to modify their lifestyle totally. This sensitivity is presumed to be from electromagnetic fields and is generally called electromagnetic sensitivity (EMS)"...

(F)

FBI - U.S. Federal Bureau of Investigation...

FLASH MOB - A flash mob (or flashmob) is a term coined in 2003 to denote a group of people who assemble suddenly in a public place, perform an unusual and sometimes seemingly pointless act for a brief time, then disperse, often for the purposes of entertainment and/or satire. Flash mobs are organized via telecommunications, social media, or viral emails. The term is generally not applied to events and performances organized for the purposes of politics (such as protests), commercial advertisement, publicity stunts, that involve public relation firms, or paid professionals...

(G)

GAGGED PERSON - Whispered lies and slander, spoken by a Perp, about a TI. If the GP believes the lies, they become infuriated at the TI – and are recruited into piling on, and targeting (perping) them. GPs are threatened, either subtly or aggressively – when they are gagged by the Perp, even though they usually have no legal authority to do so. After this the GP will not advise the TI – of either the slander they have been told, or the identity of the cowardly Perp who whispered it. The GP's fear is based on the possibility that the slander may be justifiable and true – or even worse – if it is false, they fear that similar slander may be unleashed against them, unless they cooperate with the unjust targeting of the TI...

GASLIGHTING - A form of psychological abuse in which false information is presented to the victim with the intent of making them doubt their own memory and perception. It may simply be the denial by an abuser that previous abusive incidents ever occurred, or it could be the staging of bizarre events by the abuser with the intention of disorienting the victim. Gaslighting had a colloquial origin explained below, but the term has also been used in clinical and research literature...

GANG STALKING - Under occupational health and safety laws, individuals are being flagged and placed on community notification lists. This is happening without the targets knowledge. In many countries these community notifications are being used by companies and others to target innocent individuals such as whistle-blowers, the outspoken, etc. In conjunction with these notifications, companies and others are in some cases using a practice that was used in the former soviet union called the psychiatric reprisal. This is used as a means of retaliation, blacklisting, silencing, or controlling members of society. Once on the notification system, warnings about the targets are sent out to every individual the target comes in contact with, thus poisoning their associations, and socially annexing the targeted individual...

GANG-STALKER - A person who participates, in a group that stalks, follows, mobs, bullies, harasses, and slanders TI's on a 24/7 basis. Block Watch programs are notorious participants, as are organized motorcycle gangs, churches, or any other group that can be infiltrated and manipulated. The orchestrating umbrella above the gangs of stalkers has access to the most sophisticated law enforcement surveillance and communication resources. The scheme is government sponsored, their funding is endless, and the protocol is secretive...

(H)

HARASSMENT - This term covers a wide range of offensive behaviour. It is commonly understood as behaviour intended to disturb or upset. In the legal sense, it is behaviour which is found threatening or disturbing. Sexual harassment refers to persistent and unwanted sexual advances, typically in the workplace, where the consequences of refusing are potentially very disadvantageous to the victim. In 1984, the Canadian Human Rights Act prohibited sexual harassment in workplaces under federal jurisdiction...

HATE CRIME - A crime committed to intimidate, harm or terrify not only a person, but an entire group of people to which the victim belongs. The victims are targeted for who they are, not because of anything they have done. Hate crimes involve intimidation, harassment, physical force or threat of physical force against a person, a family or a property...

HUMAN RIGHTS - A term concerning the private rights and power of the people. This typically has broad meaning, covering all human rights protected under the law outside of the criminal law context. Civil rights primarily gravitates around issues such as discrimination, accommodation, suffrage (voting), and to a lesser extent, property rights. Human rights are primarily protected under the federal Rights and Freedoms where the state is a party to the matter. Controversial human rights issues have included patient rights, freedom of speech, freedom of religion, parents' rights, children's rights, abortion rights vs rights of the unborn, minority rights, majority rights, rights of the disabled, tenant rights and economic, social and political rights...

HANDLER - A term used in the intelligence services (and MKULTRA survivor groups)

referring to a direct supervisor of an intelligence "asset". Someone who has been programmed to do the will of a controlling agency, such as a mind control target, is a "asset" to the controlling agency. Current day organized stalking and electronic harassment targets are not usually acquainted with their handlers, however, we can be certain at any given time that each of us has one. The term handler is heard and read much more frequently among MKULTRA survivors. The handlers know the appropriate hypnotic words, tones, or other signals to invoke the "asset's" hypnotic programming...

(I)

**INFORMED CONSENT** - The signing of consent forms for other kinds of medical procedures, such as surgery, or for cancer treatments such as radiation or chemotherapy. However, informed consent for a clinical trial involves much more than just reading and signing a piece of paper. Rather, it involves two essential parts: a document and a process. The informed consent document provides a summary of the clinical trial (including its purpose, the treatment procedures and schedule, potential risks and benefits, alternatives to participation, etc.) and explains your rights as a participant. It is designed to begin the informed consent process, which consists of conversations between you and the research team. If you then decide to enter the trial, you give your official consent by signing the document. You can keep a copy and use it as an information resource throughout the course of the trial. The informed consent process provides you with ongoing explanations that will help you make educated decisions about whether to begin or continue participating in a trial. Researchers and health professionals know that a written document alone may not ensure that you fully understand what participation means. Therefore, before you make your decision, the research team will discuss with you the trial's purpose, procedures, risks and potential benefits, and your rights as a participant. If you decide to participate, the team will continue to update you on any new information that may affect your situation. Before, during, and even after the trial, you will have the opportunity to ask questions and raise concerns. Thus, informed consent is an ongoing, interactive process, rather than a one-time information session...

(J)

N/A

(K)

N/A

(L)

**LAWFUL INTERCEPTION** - The legally sanctioned official access to private communications, such as telephone calls or e-mail messages. In general, LI is a security process in which a network operator or service provider gives law enforcement officials access to the communications of private individuals or organizations. Countries around the world are drafting and enacting laws to regulate lawful interception procedures; standardization groups are creating LI technology

specifications...

(M)

MIND CONTROL - The most insidious threat to our basic freedoms, such as freedom of mind and freedom of speech, is a little-known phenomenon known as mind control. As used by FACTNet, "mind control" refers to all coercive psychological systems, such as brainwashing, thought reform, and coercive persuasion. Mind control is the shaping of a person's attitudes, beliefs, and personality without the person's knowledge or consent. Mind control employs deceptive and surreptitious manipulation, usually in a group setting, for the financial or political profit of the manipulator. Mind control works by gradually exerting increasing control over individuals through a variety techniques, such as excessive repetition of routine activities, intense humiliation, or sleep deprivation...

MISO - The U.S. Special Operations Command, which, by law, is the executive agency for psychological operations, or "PSYOPs," decided that a name change was in order: Operations aimed at influencing the emotions of people outside the United States would now be known as "Military Information Support Operations." When the name change was first proposed, it took a millisecond for the thousands of active psychological operations officers and noncommissioned officers to deride the new acronym. "MISO"...

MK-ULTRA or Project MKULTRA - Referring to what was the code name for a covert, illegal CIA human research program, run by the Office of Scientific Intelligence. This official U.S. government program began in the early 1950s, continuing at least through the late 1960s, and it used U.S. and Canadian citizens as its test subjects. The published evidence indicates that Project MKULTRA involved the use of many methodologies to manipulate individual mental states and alter brain functions, including the surreptitious administration of drugs and other chemicals, sensory deprivation, isolation, and verbal and sexual abuse...

MOBBING - An impassioned, collective campaign by co-workers to exclude, punish, and humiliate a targeted worker. Initiated most often by a person in a position of power or influence, mobbing is a desperate urge to crush and eliminate the target. The urge travels through the workplace like a virus, infecting one person after another. The target comes to be viewed as absolutely abhorrent, with no redeeming qualities, outside the circle of acceptance and respectability, deserving only of contempt. As the campaign proceeds, a steadily larger range of hostile ploys and communications comes to be seen as legitimate...

MONARCH PROGRAMMING - This was a specific project carried out by secret elements of the U.S. government and intelligence groups. There were, according to someone a few years ago who had access to the computer(s) which contains all the names of active monitored human slaves, 40,000 actively monitored Monarch slaves. However, this book uses the term generically to include all victims who have suffered this type of trauma-based mind-control. In the same way, that a brand name like "Hyster" is used to describe all lifts-when we use the term we use it in its broadest sense. This is the only way it can be used and technically correct, because as of this date, the

authors have not seen who is on the active Monarch Program list of slaves...

(N)

NEURO-MONITORING or INTRA-OPERATIVE NEUROPHYSIOLOGICAL MONITORING (IONM) - intraoperative neurophysiological monitoring (IONM) or intraoperative neuromonitoring is the use of electrophysiological methods such as electroencephalography (EEG), electromyography (EMG), and evoked potentials to monitor the functional integrity of certain neural structures during surgery. The purpose of IONM is to reduce the risk to the patient of iatrogenic damage to the nervous system, and/or to provide functional guidance to the surgeon and anesthesiologist...

NOISE CAMPAIGN - An orchestrated effort to produce stress in a victim through prolonged exposure to significant noise levels. A Noise Campaign can range from multiple neighbors routinely playing loud music, individual stalkers with air-horns or fireworks, or organized "repair work" that involves a high level of noise...

NON-PERSON - A citizen or a member of a group who lacks, loses, or is forcibly denied social or legal status, especially basic human rights, or who effectively ceases to have a record of their existence within a society, from a point of view of traceability, documentation, or existence. The term also refers to people whose death is unverifiable and about which inquiries result in a "blank wall" of "nobody knows"...

(O)

ORATORY - Speech recognition. Think of it as speech-to-text software...

ORGANIZED STALKING - The preferred term for that portion of the full crime of organized stalking and electronic harassment where people who live in the community will mercilessly harass a designated target, based on LIES, such as the target is a drug dealer, the target has a long criminal record, or the favourite lie, the target is a pedophile...

(P)

PERPS - Perpetrators of the organized stalking and electronic harassment crimes...

PERPETRATOR - A person who does something harmful or dishonest, especially a person who commits a crime...

PSYCHOTRONIC WEAPONS - Devices using light for the stimulation of the brain show another way how the light flashing in certain frequencies could be used for the manipulation of human psychic life. As for the sound, a report on the device transmitting a beam of sound waves, which can hear only persons at whom the beam of sound waves is targeted...

PSYWAR or PSYOP - The basic aspects of modern psychological warfare termed psychological operations (PSYOP), have been known by many other names, including Psy Ops, Political Warfare, "Hearts and Minds," and Propaganda. Various techniques are used, by any set of groups, and aimed to influence a target audience's value systems, belief systems, emotions, motives, reasoning, or behavior. It is used to induce confessions or reinforce attitudes and behaviors favorable to the originator's objectives, and are sometimes combined with black operations or false flag tactics. Target audiences can be governments, organizations, groups, and individuals...

PROPAGANDA - A form of communication that is aimed at influencing the attitude of a community toward some cause or position. As opposed to impartially providing information, propaganda, in its most basic sense, presents information primarily to influence an audience. Propaganda often presents facts selectively (thus possibly lying by omission) to encourage a particular synthesis, or uses loaded messages to produce an emotional rather than rational response to the information presented. The desired result is a change of the attitude toward the subject in the target audience to further a political agenda. Propaganda can be used as a form of political warfare. Common media for transmitting propaganda messages include news reports, government reports, historical revision, junk science, books, leaflets, movies, radio, television, and posters...

(Q)  
N/A

(R)  
N/A

(S)

SENSITIZATION - An example of non-associative learning in which the progressive amplification of a response follows repeated administrations of a stimulus. An everyday example of this mechanism is the repeated tonic stimulation of peripheral nerves that will occur if a person rubs his arm continuously. After a while, this stimulation will create a warm sensation that will eventually turn painful. The pain is the result of the progressively amplified synaptic response of the peripheral nerves warning the person that the stimulation is harmful. Sensitization is thought to underlie both adaptive as well as maladaptive learning processes in the organism...

SKIN EFFECT - The tendency of an alternating electric current (AC) to distribute itself within a conductor with the current density being largest near the surface of the conductor, decreasing at greater depths. In other words, the electric current flows mainly at the "skin" of the conductor, at an average depth called the skin depth. The skin effect causes the effective resistance of the conductor to increase at higher frequencies where the skin depth is smaller, thus reducing the effective cross-section of the conductor. The skin effect is due to opposing eddy currents

induced by the changing magnetic field resulting from the alternating current. At 60 Hz in copper, the skin depth is about 8.5 mm. At high frequencies the skin depth may be much smaller. Increased AC resistance due to the skin effect can be mitigated by using specially woven litz wire. Because the interior of a large conductor carries so little of the current, tubular conductors such as pipe can be used to save weight and cost...

**SLEEP DEPRIVATION** - The forced deprivation of someone's necessary amount of sleep has been used in the interrogation of terrorist suspects to make them more amenable to providing information or confessions. There is some debate about whether sleep deprivation is a form of torture or one of a number of "stress and duress" techniques, and thus whether it is a legal and ethically acceptable in interrogation. According to the United Nations, sleep deprivation is a form of torture. The effects of sleep deprivation range from irritability, confusion and a decreased ability to concentrate, to loss of consciousness resulting from the failure of red blood cells to transport oxygen to the brain...

**STALKING** - A term commonly used to refer to unwanted, obsessive attention by individuals (and sometimes groups of people) to others. Stalking behaviors are related to harassment and intimidation. The word "stalking" is used, with some differing meanings, in psychology and psychiatry and also in some legal jurisdictions as a term for a criminal offense. It may also be used to refer to criminal offences or civil wrongs that include conduct which some people consider to be stalking, such as those described in law as "harassment" or similar terms...

**STREET THEATER** - When spoken of in an organized stalking context refers to carefully scripted harassment by neighbours and strangers especially, but can include harassment by family, friends and co-workers. These acts are designed to keep a target at a high stress level, and are crafted so that outside observers are likely to wave the skits off as "life's normal breaks". The cumulative effect of such acts can be crushing to sensitive targets. Noise, crowding in person or on the highway, stealing items from shopping cart when in the checkout line, and kids sent to hang out in front of, stare, make noise, and even throw tennis balls against the target's house are simple examples. What differentiates street theater from "the breaks" is that street theater goes on every day, often by different mind control operatives, far too often to be random or "natural". Cover is provided by the tendency of people to refuse to acknowledge the frequency of these acts and consider the complainer just being "a crank"...

(T)

**TARGETED INDIVIDUALS** - A department of defence term, are people who locals deem unfit for society, in one way or another. Some are whistle-blowers; some are dissidents, like anti-war demonstrators; some have a beef with one corporation or another; some just have different political or religious ideologies than the norm; some are targeted for reasons of lust and greed, and some are targets of convenience. They are targeted by means of gang-stalking, b & e's, harassment, poisonings (biological and/or chemical), remote electronic harassment (messing with radios and tv's, etc., remotely), vandalism, character assassinations, staged

accidents, etc...

**TARGETED KILLING** - The targeting and killing, by a government or its agents, of a civilian or "unlawful combatant" taking a direct part in hostilities in the context of an armed conflict who is not in that government's custody and cannot be reasonably apprehended. The target is a person taking part in an armed conflict or terrorism, whether by bearing arms or otherwise, who has thereby lost the immunity from being targeted that they would otherwise have under the Geneva Conventions. Targeted killing has been used by governments around the world, and has become a frequent tactic of the United States and Israel in their fight against terrorism...

**TI or TARGETED INDIVIDUAL** - An individual who has been placed into a maze of psychological and often physical warfare tactics which is orchestrated by the U.S. military, C.I.A. and federal law enforcement. From community harassment known as "Organized Stalking" and various other invasion of privacy tactics and violations of basic constitutional rights to invisible, silent physical torture through the use of highly targeted overexposure to electromagnetic radiation...

**TORTURE** - Any act or omission by which severe pain or suffering, whether physical or mental, is intentionally inflicted on a person for a purpose including, obtaining from the person or from a third person information or a statement, punishing the person for an act that the person or a third person has committed or is suspected of having committed, and intimidating or coercing the person or a third person, or for any reason based on discrimination of any kind, but does not include any act or omission arising only from, inherent in or incidental to lawful sanctions...

**TROLL** - Someone who criticizes other people, especially on the Internet...

(U)

N/A

(V)

**VENGEANCE/TERRORIST STALKERS** - Perps who do not seek a personal relationship with their targets. Rather, vengeance/terrorist stalkers attempt to elicit a particular response or a change of behavior from their victims. When vengeance is their prime motive, stalkers seek only to punish their victims for some wrong they perceive the victim has visited upon them. In other words, they use stalking as a means to "get even" with their enemies...

**VICTIMIZATION or VICTIM** - The process of being victimised. To victimise is to make someone a victim or sacrifice, punish someone unjustly, or swindle or defraud someone...

**VOICE TO SKULL DEVICES or V2K** - A nonlethal weapon which includes a neuro-electromagnetic device which uses microwave transmission of sound into the skull of persons or animals by way of pulse-modulated microwave radiation; and a silent sound device which can transmit sound into the skull of person or animals.

**NOTE** - The sound modulation may be voice or audio subliminal messages. One application of V2K is use as an electronic scarecrow to frighten birds in the

vicinity of airports...

(W)

WORKPLACE BULLYING - The repeated, health-harming mistreatment of one or more persons (the targets) by one or more perpetrators that takes one or more of the following forms: Verbal abuse; Offensive conduct/behaviors (including nonverbal) which are threatening, humiliating, or intimidating; Work interference: such as sabotage which prevents work from getting done...

(X)

N/A
